

MELAMINE-FACED BOARD – RESOPAL® MFB

Our Environmental Passport has been designed as an integral part of our transparent, global approach to sustainability to help you meet the environmental requirements of your projects. Each of our products has its own unique **Environmental Passport, specifying its production, usage, and end-of-life**. Furthermore, the life cycle and environmental impact of each product has undergone thorough testing by an independent authority.

COMFORT & HEALTH

Healthy Composition

Chemical substances¹ are **below regulatory thresholds**, and correspond to the **REACH, BPR**, and **Cradle-to-Cradle** banned substances lists.

NATURAL RESOURCES

Raw Materials

This product is composed of:

>95%
Renewable
materials

CIRCULARITY

Lifespan

50 Years
According to life cycle
assessment

Indoor Air Quality

French VOC regulation: **A+** (wall)
ABG/AgBB requirements²: Pass
Standard faced chipboard - **E1**
equivalent to the E0.5 commercial designation
Wall + ceiling + flooring scenario
Chemicals prohibition regulation: Pass

²Committee on health assessment of building products

Sustainable Management

All of our products can be
PEFC (PEFC/04-31-1353)
or **FSC**® (FSC® C104603) certified.³
**Compliant with the European Union Timber
Regulation (EUTR)** for sustainable timber supply.

³On request, and subject to the certification of our suppliers
and availability of stock

Energy Recovery

17 MJ/kg
can be produced
via combustion of panels.

Hygiene

Our **inert, antibacterial surfaces**
conform to ISO 22196, JISZ 2801
and are **food-safe** according to EN 1186.

Carbon Footprint

Entire Life Cycle⁴

-2,70 kg
eq. CO₂/m²

Production Phase

-26,80 kg
eq. CO₂/m²

⁴incl. end of life and reduced environmental impact

Waste Recycling

Reuse through
local initiatives

Recycling possible
through wood industry

**European
Waste Catalog
(EWC) Code 200301**

Building certifications: our products are suitable for compliance with most environmental building certifications. The environmental data sheets and evidence documents for the DGNB, LEED and BREEAM certifications for each product are available on our website. Depending on the certification system, they provide an overview of the number of points achievable or the quality levels for each product.

REACH: European regulation for registering, evaluating and authorising chemical products.

BPR: Biocide Product Regulation.

Cradle-to-Cradle: an approach that promotes the development of positive-impact products.

¹ Free from heavy metals, halogenated products (containing chlorine, fluorine, bromine), nickel, added urea formaldehyde, solvent-based ink, PAK/PAH (polycyclic aromatic hydrocarbon due to wood preservatives).

DIRECT FACED BOARD – RESOPAL® TRACELESS FACED BOARD

Our Environmental Passport has been designed as an integral part of our transparent, global approach to sustainability to help you meet the environmental requirements of your projects. Each of our products has its own unique **Environmental Passport, specifying its production, usage, and end-of-life**.
